DETAILED ACTION

Claims 5-46 are pending in the application.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 5-12, drawn to a fuel additive composition, classified in class 514.
- II. Claims 13-30, drawn to a process for preparing a fuel additive, classified in class 568, subclass 607.
- III. Claims 31-32, drawn to a second fuel additive, classified in class 568, subclass 607.
- IV. Claims 33-44, drawn to a packet of fuel additives, classified in class 514.
- V. Claims 45-46, drawn to a process for producing a packet of fuel additives, classified in class 568, subclass 607.

The inventions of Groups I through V are patentably distinct from each other because prior art anticipating or rendering obvious any one invention would not necessarily anticipate or render obvious any of the other group of inventions. Thus, an undue burden or search would be required to prosecute the inventions of Groups I through V together.

Because these inventions are distinct for the reasons given above and the search required for one Group is not required for the other Groups, restriction for examination purposes as indicated is proper.

Art Unit: 1621

A telephone call was made to Alexander G Vodovozov on 11/8/04 to request an oral election to the above restriction requirement, but did not result in an election being made.
